Message from SIOP Asia President and SIOP Asia Scientific Chair

Dear SIOP Asia Members, Colleagues and Friends,

It is with great honor and deep responsibility that we welcome you to the SIOP Asia 2027 Congress, to be held in the vibrant capital of Tashkent, Uzbekistan.

Asia is home to more than half of the world's children and to some of the greatest disparities in pediatric cancer outcomes. This reality defines our mission. SIOP is not only a scientific community, but it is also a movement: to ensure that where a child is born should not determine whether that child survives cancer.

Uzbekistan is a powerful and symbolic host. A country standing at the historic meeting point of cultures and ideas along the Silk Road, and now rapidly modernizing its healthcare and scientific infrastructure, it reminds us that progress in pediatric oncology depends on the same spirit that built those ancient trade routes: connection, exchange, and the willingness to bring distant knowledge home. This Congress will bring together clinicians, researchers, nurses, policymakers, advocates, and partners from across the region and beyond to share science, exchange experience, and build solutions that are relevant, realistic, and impactful.

We warmly invite you to Tashkent in 2027 to learn, to lead, and to shape the future of pediatric oncology in Asia and beyond, together.

Welcome to Tashkent. Welcome to SIOP Asia 2027!

Dr. Gevorg Tamamyan
SIOP Asia President

Dr. Kirill Kirgizov
SIOP Asia Scientific Committee Chair

Message from the LOC Chair

Dear Colleagues, Sponsors and Friends,

It is my great pleasure to invite you to SIOP Asia 2027 Uzbekistan, to be held from Monday, 24 May 2027 – Wednesday, 26 May 2027 at the Hyatt Regency Tashkent in Tashkent, Uzbekistan.

As Local Organising Committee Chair, I am honoured to welcome the SIOP Asia community to Uzbekistan for the first time and to showcase Tashkent as a dynamic meeting point for paediatric oncology leaders across Asia and beyond.

Hosted with the support of the Scientific and Practical Medical Center for Pediatric Oncology, Hematology and Immunology in Tashkent, the congress will bring together clinicians, researchers, nurses, allied health professionals, advocates, policymakers and industry sponsors who share a commitment to improving outcomes for children and young people with cancer.

SIOP Asia exists to promote optimal standards of care for children and young people with cancer, with a focus on strengthening awareness, diagnosis and treatment throughout the region. SIOP's broader vision is that no child should die of cancer: cure for more, care for all, and this regional congress is an important platform for translating that vision into practical cooperation, education and action.

The need for collaboration has never been clearer. Through the World Health Organization's Global Initiative for Childhood Cancer, the global community is working toward at least 60% survival for children with cancer by 2030, while reducing suffering and improving quality of life.

SIOP Asia 2027 Uzbekistan will contribute to this shared movement by creating space for regional dialogue, scientific exchange, training, sponsorship-building and practical discussion on how to strengthen services in diverse health systems. Tashkent offers a fitting setting for this ambition. As a city at the crossroads of culture, science and exchange, it reflects the spirit of connection that SIOP Asia seeks to foster. The 2027 congress will provide opportunities to share new research, discuss models of care, strengthen professional networks and build meaningful links between local, regional and international experts.

We are planning a program that will support multidisciplinary learning and encourage collaboration across paediatric oncology, haematology, nursing, allied health, survivorship, supportive care and health-system development. We also recognise the vital role of sponsors, exhibitors and sponsor organisations in helping advance education, innovation and access to care.

On behalf of the Local Organising Committee, I warmly invite you to join us in Tashkent and to consider how your organisation can contribute to the success and impact of SIOP Asia 2027 Uzbekistan.

Please contact our congress secretariat team to discuss sponsorship, exhibition and sponsorship opportunities for SIOP Asia 2027 Uzbekistan.

Sincerely,

Jamila Nabieva
Deputy Director, International Development and Cooperation, International Academic Hub for Pediatric Cancer

WHY SUPPORT & EXHIBIT

SIOP Asia 2027 advances education across every aspect of Paediatric and Adolescent Oncology, connecting oncology professionals, parents, and cancer survivors.

Our congress offers an unparalleled platform to stay at the forefront of this rapidly evolving field and help translate cutting-edge science directly to patient care.

- **Targeted Global Reach:** Engage with over 300+ multidisciplinary healthcare professionals from the region and globally, representing leading hospitals, patient and family organisations, universities, and healthcare institutes—many of whom serve as key decision-makers.
- **Impactful Networking:** Build meaningful connections across our community to drive collaborative research, mentor emerging investigators, and expand educational opportunities worldwide.
- **Broad Interdisciplinary Focus:** Partner with leaders across every discipline driving pediatric oncology forward. SIOP offers a uniquely holistic platform that seamlessly connects breakthrough precision medicine and targeted therapies with long-term patient outcomes. Showcase your solutions to key decision-makers across the entire continuum of childhood cancer care—from genomic diagnostics and novel therapeutics to managing acute treatment toxicities, pain, and antiemetic care, through to long-term survivorship, late effects management, specialized nutrition, and supportive care.
